

# WEBSITE REPORT FOR 2011 A.G.M.

It is now 11 years since the decision was made to have a dedicated 41 Club website, and I am happy to report that it has been developed into something we can all be proud of.

We have endeavoured to put as much historical information and photos on the site as we can get our hands on – if you have anything that would be of interest to other members, please contact me.

Our website is linked to 41 Club sites all around the world, and is often used by people overseas, and here in New Zealand, to search out information they require.

This year has seen little activity or change on the website – we seem to have made all those necessary changes, but we are always on the lookout for more items of interest to add to it, or ideas on how to improve it and make it even easier to use.

At the moment our webmaster is living in Italy, but, thanks to the internet, we are able to communicate and make changes as easily as if he was at home, just down the road from me.

Again, I say “Thank you” to the members for entrusting me to carry on in my role as web caretaker, and I offer my services for this coming year.

Yours in 41,

Peter Butchart

Web Caretaker

June 2011
